EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael R. Reinemann on 11/12/2004.

The application has been amended as follows:

Claim 1 (currently amended). A data receiving unit for receiving data transmissions in which data is transmitted in parallel over a plurality of conductors and a forwarded clock signal, synchronized with the data, is received over a further conductor, said unit comprising:

a first latch connected to receive the data on said data conductors, said latch being clocked by said forwarded clock signal;

means for maintaining a delayed replica of said forwarded clock signal in synchronism with said forwarded clock signal, said delayed replica being a local clock signal for internal operations of said receiving unit;

a second latch connected to receive the contents of said first latch, said second latch being clocked by said local clock signal on transitions alternate to those on which said input latch is clocked.

EXAMINER'S STATEMENTS OF REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: Claims 1-12 are allowable over prior art because related references do not disclose a second set of latches in a receiving unit which receive data from a first set of latches clocked by a forwarded clock signal, wherein the second set of latches are clocked on alternate transitions of a delayed replica of the forwarded clock signal. The delayed replica is synchronized to the forwarded clock signal and also serves as a local clock signal in the device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Curtis B. Odom whose telephone number is 571-272-3046. The examiner can normally be reached on Monday- Friday, 8-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Stephen Chin can be reached on 571-272-3056. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
